

Wintersleep, Search Party

Are you waiting for a miracle?
Are you waiting for a lightening bolt?
Are you waiting like a paranoid little boy?
Are you ever gonna come back home?

Do you believe that the sky is falling?
How you ever gonna pick up the peices?
Do you really think that anybody will listen?
Do you really think that anybody will notice?

...No way... (repeats)

I used to dream about saving the world
Now I just dream about the holidays
I used to write so many songs for my girl
Now all I think about is floating away

I think I need a big vacation
I think I need a big vacation
I think I need a big vacation out of this place
Out of this place (x6)
