

# Withering Surface, Night Of Shame

Succumb your inferior fright - razorblades  
Empty the cosmic glass - cut the stream  
Taste my organic vengeance - razorblades  
Have a look at yourself - in the night of shame

Taste my organic vengeance - razorblades  
Be ashamed of yourself - in the night of shame

I stand before you  
With stains in my mind  
The pain, the sorrow  
In the night you never came

The pain, the sorrow  
In the night you never came  
The lies, the horror  
In the night, the night of shame

Taste my organic vengeance - razorblades  
How can you live with yourself - in the night of shame

The pain, the sorrow  
In the night you never came

The pain, the sorrow  
In the night you never came
