

Within Temptation / Tarja, Paradise

There's no sense, the fire burns
When wisdom fails it changes all
The wheel embodies all that keeps on turning

Blood red skies, I feel so cold
No innocence, we play our role
The wheel embodies all where are we going

All in all you'd expect the wise to be wiser
Fallen from grace
All and all I guess
We should have known better, 'cause?

What about us?
Isn't it enough,
No we're not in Paradise

This is who we are
This is what we got
No, this is not our Paradise

But it's all we want,
And all that we're fighting for
Though it's not paradise

You and us, or I and them
There comes a time to take a stand
The wheel is watching all, it keeps on burning

The venom works, it's like a curse
A Trojan horse, when will we learn?
The wheel embodies all, that keeps returning

All in all you'd expect the wise to be wiser
Fallen from grace
All and all I guess
We should have known better, 'cause?

What about us?
Isn't it enough,
No we're not in Paradise

This is who we are
This is what we got
No, this is not our Paradise

But it's all we want,
And all that we're fighting for
Though it's not paradise

What about us?
Isn't it enough,
No we're not in Paradise

This is who we are
This is what we got
No, this is not our Paradise

But it's all we want,
And all that we're fighting for
Though it's not paradise

What about us?
Isn't it enough,

No we're not in Paradise

This is who we are
This is what we got
No, this is not our Paradise

But it's all we want,
And all that we're fighting for
Though it's not paradise

What about us?
Isn't it enough,
No we're not in Paradise

This is who we are
This is what we got
No, this is not our Paradise

But it's all we want,
And all that we're fighting for
Though it's not paradise

What about us?
What about us?
What about us?
Isn't it enough?

What about us?
What about us?
What about us?
Isn't it enough?

What about us?
What about us?
What about us?
Isn't it enough?

What about us?
What about us?
What about us?
Isn't it enough?
