

Within Temptation, The Fire Within

This is what I wanted.
Nothing's gonna change it.
This is what it's all about.
Gotta keep believing.
This is why I am breathing,
nothing else on my mind.

Suddenly I see that time has been running out
Lord I feel like it coming,
under my skin.
I can feel the change,
under my skin.
No more hesitating
I don't wanna face it
This is all I've ever known.
All my doubts are fading
Rushing to the edge and I let myself go.

And I feel that my heart's going crazy now.
I am not gonna break, can't be taken down?
No i'm not going under,
it's going down with the thunder.
I feel the fire within burning high
With the thunder.
No, I'm not going under.
It's going down with the thunder.

It's going down with the thunder.

This can not be taken.
All I have been facing.
I will never let it go.

Feel the liberation.
It won't be forsaken.
Never gonna shout it out.
Suddenly I see that this is not the end.
Lord, I feel like it coming under my skin (?)
I can feel the change,
Under my skin.

All my doubts are fading.
I feel my mind is straining
Rushing to the edge and I let myself go.

And I feel that my heart's going crazy now.
I am not gonna break, can't be taken down?
No i'm not going under,
it's going down with the thunder.
I feel the fire within burning high
With the thunder.
No, I'm not going under.
It's going down with the thunder.

It's going down with the thunder.

I am what I am.
I'm not heaven sent.
I am what I am.
Here we go again.
Down with the thunder.

And I feel that my heart's going crazy now.
I am not gonna break, can't be taken down?

No i'm not going under,
it's going down with the thunder.
I feel the fire within burning high
With the thunder.
No, I'm not going under.
It's going down with the thunder.
