

# Wiz Khalifa, Can't Wait

You can't wait too long (Who you know smoke more than the Gang?)  
Cause opportunity comes and goes  
You can't wait too long (Don't worry I'll wait)  
When you get another shot you never know  
You can't wait too long (What up Al Pac!)  
Got no time for that, no time for that  
You can't wait too long, you can't wait too long, no

I ain't waiting for my shot  
I'd rather get mine the hard way than take it off the top  
I make her do what my car say  
I'm skating off the lot, smoking weed in the hallway  
I stink of all the pot, think you get out on the squad  
But I'm thinking that you not  
Run up on me the wrong way and end up getting socked  
Ain't worried bout what you gon' get just think of what you got  
Telling me I'm a star so I take her to the block  
Let her meet all my squad see my place  
See all of my cars could win a race  
But I'm grown I be on a different pace  
Get a shot get a chase, I don't take her out on a dinner date  
Want a real nigga mama he's in your face  
Watch how I innovate  
These bitch ass niggas they been afraid  
We ain't just getting started we been a gang  
You lil ones ain't in the way, you just a bunch of Internet chumps  
Tryna be tough, until somebody fuck you up  
It's Young Wiz

You can't wait too long  
Cause opportunity comes and goes  
You can't wait too long  
When you get another shot you never know  
You can't wait too long  
Got no time for that, no time for that  
You can't wait too long, you can't wait too long, no

Niggas bullshitting me I'm on a paper chase  
On the grind everyday to get this paper straight  
I paid my dues, Al Peezy making major moves  
Smoking on some KK sipping on my booze  
I'm from the bottom, coming straight off the block  
Ride around in the Caddy, high from pushing this drop  
I'm a take you to the top, still repping for Bigavell  
And I'm coming for my spot, still giving you niggas hell  
What it is, Al Gotti I'm riding with Young Wiz  
Gain Greene, Taylor Gang we give you niggas the biz  
The streets love it, Al Pac I make it do what it do  
If you niggas need that wave I put you up in the loop  
Got your lady in the coupe and she swallowed the whole team  
When we pull up to the spot, we murder the whole scene  
Hold it down for the town, I'm the menace from uptown  
Talk crazy out your mouth, my nigga get barked down

You can't wait too long  
Cause opportunity comes and goes  
You can't wait too long  
When you get another shot you never know  
You can't wait too long  
Got no time for that, no time for that  
You can't wait too long, you can't wait too long, no
