When you call my phone, really don't got shit to say  
Cause I ain't tryna get into it with you like I used to  
I try to handle situations differently than you do  
You try send a message, I don't get it at all  
See my new girl, tryna tell me she not the one  
Baby girl you gone have to love me from a distance  
I tried to teach you everything I know but you ain't listen  
Riding in my whip alone thinking bout what's missing  
How a nigga feeling different  
A lot of shit you put me through but really I ain't tripping  
That ain't nobody business even when you're in your feelings

We've been doing good since we met  
Girl it feels so good when we sex  
Usually I move to the next  
Got a few but with you it's the best  
You don't care about the jewels on my neck  
Give me love plus the rules you respect  
Hear 'em talk, you ain't too into that  
All that ass, what you doing with that?  
It's true I rap and it's true that I stack  
If you show me love, promise you'll get it back  
You show me the real thing, you'll get it back  
Show me I'm the only one, you'll get it back  
Due to the fact
