

Wiz Khalifa, This Time Around

Just the wind in my hair from the top 'cause I got it down
Booking flights for myself, it's just me when I'm out of town
And that my heart breaks everytime I see your face
Wish I could make you smile this time around, this time around
This time around, this time around
This time around, this time around

This time, I ain't skipping over it this time
I ain't missing out, I'ma get mine
Looking back like "Damn, it was just time"
This time, I won't be feeling nothing, I'll be just fine
Take the perfect shot, I ain't gon' misfire
This time, everything is aligned if you just being defined

Just the wind in my hair from the top 'cause I got it down
Booking flights for myself, it's just me when I'm out of town
And that my heart breaks everytime I see your face
Wish I could make you smile this time around, this time around
This time around, this time around
This time around, this time around

And around we go
You ain't with me unless we both got a pound to blow
Before you met me, wasn't even around the smoke
Now you be rolling it up and blowing it down for sure
You say it's been a minute
You love it when I'm in it
You never wanna finish
You say it's been a minute
You love it when I'm in it
You never wanna finish
Don't play, you want the business

Hearts been broken
Truths been spoken
Peaceful thinking
Minds been opened
Hold you in my arms
Keep you here with me
Don't wanna let you down

So I can make you smile this time around, this time around
Time around, this time around
Time around, this time around
