

# Wiz Khalifa, Top Floor

Started out slow, out slow  
Cause no matter how much she gets  
She wants more, girl  
Now we're on the top floor, top floor  
Holding on tight, you ain't letting go  
Can you feel it in?  
Can you feel it in?  
Feel it in

Oh  
First class help you in the game like a free throw  
Fill my bank up with cash, my glass with Clicquot  
You ain't gotta tell your friends what we talk about  
All the places that we go, we go  
You're mine for the night, your man try and repo, oh  
Work nights never sleep so you think she got no job  
Go to school during the week on the weekend we go hard  
Live so large, let you go tear down the mall like it's your card  
It's no problem, go ahead and sing it girl, this is your song

Started out slow, out slow  
Cause no matter how much she gets  
She wants more, girl  
Now we're on the top floor, top floor  
Holding on tight, you and I go  
Can you feel it in?  
Can you feel it in?  
Feel it in

Oh, nothin you can tell us, they get jealous when we show up show up  
Make you feel like a little girl again, but fuck you like a grown up  
High as you can be it's like the dream you never woke from  
My life's like a movie, get ready for your close up  
Pour bottles and toast up  
Your man in your phone trying to see what your plans is  
So what, you still turn up my songs soon as they playing it  
Know what the sound is my new talks and you ain't saying shit  
I'm a call you soon as I land  
Probably roll some weed ride up on the beach while you tan  
Party every week and you hardly would speak  
But now you got my phone taking pictures  
Laughing, smoking, chilling, yeah

Started out slow, out slow  
Cause no matter how much she gets she wants more, girl  
Now we're on the top floor, top floor  
Holding on tight, you and I go  
Can you feel it in?  
Can you feel it in?  
Feel it in

We don't need nobody talk  
Probably cause we're in the sky, sky, sky, sky  
When we really take off  
And I tell her hold on  
Cause she say she never been this high  
We don't need no nobody talk  
Probably cause we're in the sky, sky, sky, sky  
When we really take off  
And I tell her hold on  
Cause she say she never been this high
