

# Wiz Khalifa, Trap Nap (feat. Saxl Rose)

I got big plans for you, spending big racks  
I'ma mix this with that  
Little weed, a little liquor, shorty ass fat  
Bring it here and bend it over, I'ma tap that  
Smoke a joint and pass, I call it a trap nap  
Pillow talking to that bitch who got a bad rep  
I can't put you on my team 'less you an asset  
Smoking kush, I'm on the stuff don't wanna pass that

In my duffle, I can't stay up out my bag yeah  
Give her dick, I'm never filling up her Cash App  
I put my new bitch on chronic, we ain't alcoholics  
But we getting bottles and we drinking all this  
I remember back then they used to sleep on us  
Didn't hit us back, wouldn't hear a peep from 'em  
When I hit the ground told myself to keep running  
Now these niggas mad and they got the weak stomach  
I'm just tryna call Pharrell for that Richard Mille  
Putting kushy in the air, make sure you inhale  
Hop back up in the town and got insecure  
Shorty back it on me now while I pull your hair

I got big plans for you, spending big racks  
I'ma mix this with that  
Little weed, a little liquor, shorty ass fat  
Bring it here and bend it over, I'ma tap that  
Smoke a joint and pass, I call it a trap nap  
Pillow talking to that bitch who got a bad rep  
I can't put you on my team 'less you an asset  
Smoking kush, I'm on the stuff don't wanna pass that (okay)

She a Toronto girl and she know how to roll up  
I hit the six and like the weather I be froze up  
She smell the kushy in her nose, I just tell her touch her toes  
Brought another [?] with, that means it's four of us  
We getting a penthouse so come up a couple floors  
We ordering another course, you smell the weed through the doors  
We rolling up and drinking, this ain't no shit you ain't done before  
Don't even gotta say I'm that nigga 'cause you been well informed  
Take a shot, now we on another level  
Say you down you lose control if I let you  
And as long as I don't treat you like you one of them other bitches  
You gon' show me all the reasons that you special

I got big plans for you, spending big racks  
I'ma mix this with that  
Little weed, a little liquor, shorty ass fat  
Bring it here and bend it over, I'ma tap that  
Smoke a joint and pass, I call it a trap nap  
Pillow talking to that bitch who got a bad rep  
I can't put you on my team 'less you an asset  
Smoking kush, I'm on the stuff don't wanna pass that
