

Wiz Khalifa, Young, Wild And Free (Konglomerate)

That's what we're about
Living by the sea
Sipping on some rum
Under the shade of the tree
That's what we about
Just feel the warm breeze
Living young and wild and free

The sun, ocean, on an island
Where no one can find me
The sun, ocean, sipping on some rum
The sun, ocean, on an island
Where no one can find me
The sun, ocean, and the party just begun

That's what we're about
Living by the sea
Sipping on some rum
Under the shade of the tree
That's what we about
Just feel the warm breeze
Living young and wild and free

That's what we're about
Living by the sea
Sipping on some rum
Under the shade of the tree
That's what we about
Just feel the warm breeze
Living young and wild and free
