

# Wizard, Iron War

We have gathered around the table  
To cleanse our weapons  
Of the blood of deceivers  
We killed in the battle of steel

But now this is reality  
Fantasy is gone  
We now prepare our minds  
For the iron war

In the sign of the wizard  
We will ride to victory  
The banner of destruction  
Our enemies will fear

(In the) iron war iron war  
The philosophy of metal will prevail

We now let our spirits fly  
Like an eagle in the sky  
Across the mountains and the sea  
We are flying high

People of the world  
Come and face your doom  
Warriors of metal  
Are coming to you soon
