

# Wizard, True Metal

Why do you ask us if we were false or true  
Can't you just shut your fucking mouth  
Why do you look at us like we were shit  
Are you just envious  
We just want to live our life  
We don't care what you say

We play more metal than the most people can take  
Bad reviews and fat ass critics we don't care  
We play metal for all metal heads  
And not for rotten posser rats

True metal the sound of our hearts  
We will never be apart  
The sense of our lives  
Deceivers our victory is your doom

Don't try to stop 'cause we are too strong  
The wall on which you'll be crushed  
The day we meet you will never forget  
Your untrue posser rats  
We are not born to serve  
We are born to rule

We play metal loud and proud  
Smashing enemies to the ground  
Born to play the metal sound  
By true metal we are bound  
We don't care what you say  
Hear what we play
