

# Wolfchant, Blood For Blood

[I.]

Oh my god i cant believe whats happen now with me  
Oh my god what should i do my son is dead the only one  
I feel so much pain in me my heart is cold like ice  
Uziels look is full of fear everywhere is blood - to see  
Oh my god is this the time i will attack right now

[Chorus:]

And I will now attack  
Blood for Blood its my revenge  
Feel my pain feel my sword  
Blood for Blood for my sons life  
And I will now attack  
Blood for Blood its my revenge  
Feel the rage in my heart  
You die for my son

[II.]

Oh my god Uziel cant believe whats happen now with him  
Oh my god he has no chance our swords will hit his mans  
He was not calm he is surprised against our attack  
Uziels look is full of fear everywhere is blood - to see  
Oh my god his soldiers run hundreds are dead we won

[Bridge:]

Wind and storm are by my side The troops of Odin won  
Our wilderness is like an animal the false king has to run  
Feel my coldness feel my sword  
We still alive - and we still strike  
Feel my agony my pain  
Look in my eyes you have to die
