Wolfsheim, Touch

When I touch you ... feeling your skin When I touch you ... deep within I'll break your silence on your way to me I will make you everything you want to be When I touch you...

You know that you'll love it... you'll need it... For sure...

I'm drawing your lines with my hands I'm weaving the dream that never ends I don't play hide and seek... with you... dear When I touch you...

Aiming fingers searching secret pleasures Roaming where your river seems so deep You know I'm going on I like the song you'll sing... for me When I touch you...

You know that you'll...

And when tension's spilling down your skin Love will never be what she once was When I touch you...
