

# Working Title, Never Run Again

(Verse 1)

You were walking towards my first  
Apartment with hesitance  
Feeling like you were making mistakes  
Oh I've made them I'm sorry  
It's an awkward time to replace  
History with feelings  
But I'll suck the pain out anyways  
I'm hardly alive now

(Pre-chorus)

So cut into my chest  
And leave me on the bed

(Chorus)

I could crawl on my hands and my knees  
Change the way I do everything  
My desires crumble away  
Leaving me safe driving away

(Verse 2)

I've been a mess no sleep for weeks  
My head hurts I've earned it  
The other day I heard your voice

For the first time in two years

(Pre-chorus 2)

It should keep me on my way  
Chasing after you

(Chorus 2)

I could crawl on my hands and my knees  
Change the way I do everything  
My desires crumble away  
Leaving me safe driving away  
Keeping me all alone  
Thinking away everything

(Bridge)

Start my car and drive  
I'm headed to you and  
I'll never hide my face  
I'll never go running away again

(Chorus)

(Chorus 2)
