

World Wide Message Tribe, Frantik

Too many times I focus on myself
Look to the inside and all the times I fail
But I look at You and Your face
I'm in Your arms and the failing's pale
I'm insignificant but all You've done in my life
To save and change me
I wanna give my whole life to worship
Own my words and deeds completely
I wanna tell that my Dad the Creator
King of the universe called me a friend
Looks up the mountains captured my love
It's immense and so close I can't comprehend.

When I come into the presence of God
I come to worship the Maker of all things
King of love, awesome Saviour of the world
Do you believe it?
Do you believe it?
Do you believe it?

When I survey the wonderful Cross
To which my Saviour Jesus hangs there nailed
I never cease to be humbled by Your love
And all my words of praise seem frail
Still Your hands of peace are all I need
And Your grace poured out lifts up my soul
As I wait on the Lord
He renews my strength
As I call on the Lord He makes me whole
I intend to sing of this amazing thing that has happened to me in
these days
Overwhelmed by the love of Jesus
I wanna worship
I wanna shout out praise

When I come into the presence of God

I come to worship the Maker of all things
King of love, awesome Saviour of the world
