

# World4another, In Your Arms

can you see me  
find me here  
i can feel you  
i know you're near  
i need you to lift me  
i want you to save me  
in your arms is where i need to be

come to me, speak through me  
consume me, i'm falling  
in your arms is where i want to be

i can see you  
you look so close  
i could touch you  
if only once  
i need you to lift me  
i want you to save me  
in your arms is where i  
long to be
