

World4another, In Your Arms

can you see me
find me here
i can feel you
i know you're near
i need you to lift me
i want you to save me
in your arms is where i need to be

come to me, speak through me
consume me, i'm falling
in your arms is where i want to be

i can see you
you look so close
i could touch you
if only once
i need you to lift me
i want you to save me
in your arms is where i
long to be
