Worlds Apart, You Said

Baby you got me
Right between the eyes
Never knew what hit me
Took me by surprise
Your love has broken me in two
Refrain:
You said you'd love me from the start
You said you'd never break my heart
You said I was your one and only
You said you'd never leave me alone ...
... again
Baby you hurt me
More than you could know
I never thought you would leave me
How could you just go
Your love is breaking up my heart
Refrain
You think you're breaking my heart
But you're setting me free
Oh baby won't you change you mind
Refrain
