

Wyclef Jean, Linda

(feat. Carl Restivo)

Every woman have a snapping point

You don't want her to snap no

Someone stop Linda

She just left the crib with a beretta

She's on her way to pop her fiance

It's the word on the street

He was sleeping with Renee

Lord knows, please someone stop Linda

He don't even know she's coming

Like the FBI, she gon' knock down the door with no warrant

Lord knows, what happened to the good time lovin', lovin'

My father used to tell me, son, listen

There's a thin line between love and hate

Once you cross that line, see there's no escape

She love me, she love you not

You don't wanna open up Pandora Box no, no

She will see that you've been cheating

When you said that two men working

All I'm saying is just watch your back

Cos tonight see I got a bad feeling Jack

Linda's got a gat

Someone stop Linda

She just left the crib with a beretta

She's on her way to pop her fiance

It's the word on the street

He was sleeping with Renee

Lord knows, please someone stop Linda

He don't even know she's coming

Like the FBI, she gon' knock down the door with no warrant

Lord knows, what happened to the good time lovin', lovin'

Listen to me now

Every barrel got a Linda

Trust me you don't want that drama

When you laughing she's crying

Mascara running down her face, now she's plotting

Like Method Man, she gon' bring the pain

Like Cypress Hill you got a insane in the membrane

All I'm saying is just watch your back

Cos tonight see I got a bad feeling Jack

Oh my God

Someone stop Linda

She just left the crib with a beretta

She's on her way to pop her fiance

It's the word on the street

He was sleeping with Renee

Lord knows, please someone stop Linda

He don't even know she's coming

Like the FBI, she gon' knock down the door with no warrant

Lord knows, what happened to the good time lovin', lovin'

Someone stop Linda (Samson fell for Delilah)

Someone stop Linda (Ahab fell for Jezebel)

Someone stop Linda (King David fell for ?)

And coming in the mist

Linda wants to head up the baptist

Someone stop Linda

He don't even know she's coming
