

Wyclef Jean, To All The Girls

[Intro:]

Yo, Wyclef, It's time that I confess (Refugee Camp) to all the girls

(Don't do it, don't do it)

[singing] To all the girls I loved before

[rapping] To all the girls I cheated on before

[singing] To all the girls I loved before

[Verse 1]

To all the girls I cheated on before, I tip my hat like Willie Nelson

You got pressure, take a sip of this Molson

Here's what happened, it wasn't my intentions

To fall into seduction while playing a temptation

I thought I had it figured out, but games don't last

The hourglass ran out, I got sprayed with the tear gas

Big men don't cry, hold my feelings inside

Stress brings me ?, I gotta hold my pride

When I see you with another guy, jealous thoughts of homicide

Call me selfish when I say Abraham has many wives

You say this is the 90's, either it's gonna be me or her

I found myself in a blur

Lookin' into the clouds thinkin' out loud

"I'm in love with two women, who is it gonna be now?"

[Chorus:]

To all the girls I cheated on before, it's a new year

I got a new change of gear, I swear

I can see clear now the clouds disappeared

You forgive but never forget, so the past reappears, uh huh

To all the girls I cheated on before, it's a new year

I got a new change of gear, I swear

I can see clear now the clouds disappeared

You forgive, but you still think that I'm a ho

[Verse 2:]

Second verse is gonna hurt, based on a true life story
I got married at 24 in New Jersey
You know the feelings start nature take it's course
Two years later 'Clef gets a divorce
When I had the cold feet, I shouldn't've walked the altar
With Dionne Warwick, she could predict my future
Went with my feelings even though it wasn't right
Creepin' with my secret lover in the middle of the night
Back home, break of dawn, dinner's at the table
Thin Line Between Love And Hate is on cable
I'm lookin' at myself thinkin' out loud
"I'm in love with two women, who is it gonna be now?"

[Repeat chorus]

[Break: (includes elements from Rapper's Delight)]

Hotel, (I'm not a) motel, Holiday Inn (you don't believe me though)
And if your girl acts up at the carnival, then you take her friend
Hotel, (I'm not a) motel, Holiday Inn (you don't believe me though)
And if your girl acts up at the carnival, then you snatch her friend

[Break it down right here]

[Verse 3:]

One love, you're lucky to have one love
It sounds bugged, drinking wine from the same jug
One heart, one mind, one soul
She ain't a gold digger, she don't care about your bank-roll
Keep your money, she make her own cheddar
All she want from me is respect like Aretha
Cooked me lasagne, stayed in for the winter

Chilled to the summer, now I'm gone 'til November

Have you seen her?

I think I did

But what I did wrong was take a love for granted

Cause first comes trust, don't rush into lust

Easier said than done, I lust and I must

Passion is a must, but then we start to cuss

We was just makin' love, now we tearing up each other's guts

Like species, she called me an animal

So feel the tongue of the warm-blooded mammal

[Repeat chorus]

[Outro:]

I'm not a ho [repeat and diminuendo at the same time]

(You don't believe me though)

I know you're diggin' this

Is it OK if I play my guitar right about now, is it alright?

(You don't believe me though)

Alright (you don't believe me though), alright

People in the back, is it OK if I play my guitar right about now?

Alright, alright, alright, alright

People on the side, is it OK if I play my guitar right about now?
