

Wynn Stewart, Built-In Love

Everything in our new home is all built-in
From the kitchen down the hall into the den
But there's something you can't see put there by you and me
You can feel it in each room our built-in love

No architect could draw the plans just something we thought of
We designed it all ourselves this built-in love
And I'll thank you everyday for keeping it this way
Let me feel it in your arms our built-in love
(steel - guitar)
No architect could draw the plans...
Oh let me feel it in your arms our built-in love
