

Wynn Stewart, Do It To Someone You Love

The words I love you come easy
To the lips of a liar or a fool
But if it's true love talking you can't do enough
So do it to someone you love

Do it to someone you love
Do everything you can to prove they're all you're thinking of
Some little thing you do to someone else could mean so much
So do it to someone you love

A smile comes easy to a strange hello
To someone that you have never met
But old love don't need a smile it's done with just a touch
So do it to someone you love

Do it to someone you love...
So do it to someone you love you love
