

Wynn Stewart, I'm Living In Sunshine

You bring me sunshine beautiful sunshine
I'm living in sunshine when I'm with you

Oh how I've missed you since you've been gone
Lonely nights and dark clouds the whole day long
Standing by my window watching it rain
When I pop the rainbow and in you came

And you bring me sunshine...
And you bring me sunshine...
(steel - piano)

I get so lonely while you are gone
And while I'm waiting it seems so long
You take my sunshine away with you
But when you come back my skies turn blue

Cause you bring me sunshine...
You bring me sunshine...
Oh I'm living in sunshine when I'm with you
