

# Wynn Stewart, I Was The First One To Know

It's no news to me you don't love me and soon you'd be letting me know  
The time and the place was the only part that I didn't know  
You don't have to tell me you're leaving you left me a long time ago  
You were the last one to tell me and I was the first one to know

I was the first one to notice when your arms first grew cold  
Even when friends came to tell me I didn't have to be told  
I've even missed you all day so if I don't cry when you go  
Oh you were you were the last one to tell me and I was the first one to know  
(I was the first one to know)
