

# Wynn Stewart, Out There Is Your World

Out there in your world where pleasures are few  
You made your choice now we are through  
Nobody could want you anymore than I do  
and out there in your world and it's waiting for you

Hurry please leave me before I sit down and cry  
The sooner the better don't say goodbye  
Out there in your world someday you'll find  
It's lonesome in your world you're still welcome in mine

Out there is your world with its pleasures all right  
But you'll have to pay on some lonely night  
With no one to love you I won't say any more  
Out there is your world what are you waiting for

Hurry please leave me...
