THE HAPPY PART OF TOWN

Well which way is it can I get there from here
Will I find it or am I even near
I'm looking for the happy part of town
Oh I've been walking yes I walked all night
Someone told me that I must turn right
But I'm still looking for the happy part of town
That's where my darling is at least I think she is
I wonder what it is she thinks she's found
If she stop loving me I've got to go and see
I'm in the lonely part of town
But I'll keep walking yes I'll walk all night
Till I find her and I'll make things right
I'm still looking for the happy part of town
That's where my darling is...
