Wynonna Judd, New Day Dawing

End of the night and my money's spent Gotta hock my clothes to pay my rent It's a roll of the dice and it's the same ole game Those crazy snakes done bit me once again

Now I wanna tell you It's been a long road and a difficult time My life's been so blue But I ain't giving up And I'm ready now to try, try, try

(chorus)

I've seen the time when you could not stop the rain When nothing changes and every day stays the same Those bitter grapes have now turned to the sweetest wine I'm ready for the sun to shine, a new day is dawning

When it gets too tough, comes to push and shove I swear it was you baby who invented love It's the same ole rhythm, it's the same ole rhyme It's the same ole stuff that gets me every time

Now I wanna tell you It's been a long road and a difficult time My life without you Ain't been easy babe But I'm ready now to fly, fly, fly

(repeat chorus twice)

Get ready, get ready Everybody get ready
