

Wynonna Judd, You Are

How do you do it anyway?
Like there ain't nothin' to it
To make me stay

No tricks with smoke and mirrors
Not anything up your sleeve
A second look and it can't be clearer
There's no mystery....

(Chorus)
It's in the way you love
It's in the little things you say
It's in the way you live
And give your heart away

It's in the chance you took
It's in the way you look at me
That sets you a world apart
And makes you who you are
You are...beautiful...you are

Pressed on my soul,
Your finger print
Going where no one's even been
Well I don't know how
But I know you're in it,
My life, my world, my dreams
I try, but I just can't pin it
Down to just one thing...

(Repeat Chorus 2x's)
It's in the way you love
It's in the little things you say
It's in the way you live
And give your heart away

It's in the chance you took
It's in the way you look at me
That sets you a world apart
And makes you who you are
And you are...beautiful...you are

Well I don't know how,
But I know you're in it
My life, my world, my dreams
I try, but I just can't pin it
Down to one thing...
You are...
