

# X Japan, Silent Jealousy

I'm looking for you  
Trying to reach your roses  
Carried away by the time  
Seijaku no kyouki ni katame wo tsubusareta mama  
You've gone away from the stage  
Leaving no words  
There's just fake tears left  
itsuwari no shinju de kazatta  
bara no hanataba wo sagasu  
I'm blind insane  
In the red of silence  
Now I've lost your love  
genkaku no ai ni kawareta ayatsuri ningyo  
Get me on my feet  
Get me back to myself  
Pretend you love me  
yubisaki made shinku ni somatta  
ore wo mitsumete  
Mou taekirenai kodoku no serenade  
kyozou no umi ni nagashite  
yume kara sameta chimamire no tenshi wo  
mune ni daitemo  
ima mo I miss you  
Can't live without you  
Silent Jealousy yume ni ochite  
dakishimeru kioku wo  
Stay in yesterday toki wo tomete  
kurikaesu kodoku wo keshite  
Take me back to the memory, to the dream  
Silent Jealousy  
Don't you leave me alone  
kanashimi ni midarete  
Kill me, Love  
I'm looking for you  
Trying to reach your roses  
Carried away by the time  
winking at the madness of silence  
You've gone away  
From the stage  
Leaving no words  
There's just fake tears left  
looking for that bouquet of roses  
that are adorned with the pearls of falsehood  
I'm blind insane  
In the red of silence  
Now I've lost your love  
a marionette fed with an illusion of love  
Get me on my feet  
You dyed my heart in blood  
No way to kill my sadness  
kill me before you leave !  
I can't see anything with  
the eye that holds a maddening love  
Even now, I miss you  
Can't live without you  
Silent Jealousy fall into a dream  
keep holding on to the memory  
Stay in yesterday, stop the time  
extinguish the recurring memory  
Take me back to the memory, to the dream  
Silent Jealousy  
Don't you leave me alone  
crumbling into sadness  
Kill me, Love

I can not stop  
Silent Jealousy  
Don't you leave me alone  
kanashimi ni midarete  
modorenai ai wo kazaru  
kurikaesu kodoku no naka ni  
Tell me true doko ni yukeba  
kurushimi o aiseru  
I still want your love ai wo tomete  
kurui saku kioku wo keshite  
"I just wanted to stay with you  
I just wanted to feel your breath of grace  
I didn't know what to do  
I couldn't say anything  
When consciousness returned  
Everything had been washed away  
by the tide of time, even you  
But the scars of memory never fade away  
I can't stop loving you  
Stop my tears  
Stop my loving  
Kill my memories"  
You dyed my heart in blood  
No way to kill my sadness  
tachisaru mae ni koroshite  
kyouki no ai ni dakareta hitomi ha  
nani mo mienai  
Get me back to myself  
Pretend you love me  
look at me, stained to  
the fingertips with crimson  
I can't stand this serenade of solitude  
flowing into a sea of ghost images  
Even if I hold to my chest  
the blood-stained angel that has awoken,  
I can not stop  
Silent Jealousy  
Don't you leave me alone  
falling into sadness adorned with the love  
that I can't return to,  
into this repeating loneliness  
Tell me true, wherever I go  
I must learn to love pain  
I still want your love, stop your love  
extinguish the memories that grow into madness  
"I just wanted to stay with you  
I just wanted to feel your breath of grace  
I didn't know what to do  
I couldn't say anything  
When consciousness returned  
Everything had been washed away  
by the tide of time, even you  
But the scars of memory never fade away  
I can't stop loving you  
Stop my tears  
Stop my loving  
Kill my memories
