

X-PERIENCE, Because the night

Dont you know
what i feel babe
you put your magic hands on the wheel
when youre driving the car
i will kiss you as far
as fallen angels do that
all the night
take my hands off the wheel
doing 215
close my eyes, count to 5
and we are still alive now
i cant get you out of my mind
and i know that my dreams come true
i cant take my hand of you, babe
and i am feeling so blue without you
and i switch off the light
a quarter to midnight
leave the road to a field
taking a wild ride
better look back if you run away
from me my friend tonight
i would do anything to let you know
you can hold me tight, all the night
dont you know
