

# Xandee, Sun

You, spice up the night  
You're like the first morning blue in the sky  
I say  
You, sweep me away  
Love can be easily turned into pain  
No I, don't need no other  
So open your heart out to me  
Ay Que Calor  
Get on the floor  
You can define, but don't deny  
And then come running back for more  
Ay Que Calor  
Get on the floor  
And I'll be everything you want me to be  
Muchacho  
Lord, give us your soul  
Turn up the rhythm and let yourself go  
I say  
Don't give up your faith  
Light up the acker and take me away  
No I, don't need no other  
So open your heart out to me  
Ay Que Calor  
Get on the floor  
You can define, but don't deny  
And then come running back for more  
Ay Que Calor  
Get on the floor  
And I'll be everything you want me to be  
Muchacho  
You, you take me higher  
Lying out there in the sun  
My heart is full of desire  
Is waiting for all that will come
