## Xandria, Ravenheart

Come to me, Ravenheart Messenger of evil Come to me. Whats the news? Here Im still left lonely

You shadow of forgotten dreams You come to take away My hope on your black wings

Of love & Department of love and the singers tell But I feel more, more of both, More than heaven & Department of love I have really learnt my part once loving him, now hating love Ive made mistakes, my Ravenheart

Will I get back who I adore? Thus spoke the raven: nevermore.
