

# Xavier Naidoo feat. Sohne Mannheims, Can you

Can you feel it?  
Coming over us now.  
Cause I can breathe it  
an its turning everything around  
Can you feel it?  
This is not where it ends  
I can feel it  
this is where we begins  
Can you feel it?  
Coming over us now.  
Cause I can breathe it  
an its turning everything around  
Can you feel it?  
This is not where it ends  
I can feel it  
this is where we begins  
Dreams fly killsers die  
its not that easy for I and I  
Blesses be jah an the highest heights  
praise his power  
praise his might  
theres darkness here  
theres hardly light  
its harder now to fight for rights  
but not everything is going down  
I can feel it in the music  
I can feel it in the sound  
Can you feel it?  
Coming over us now.  
Cause I can breathe it  
an its turning everything around  
Can you feel it?  
This is not where it ends
