

Xymox, Headclouds

You walk with someone beside you
You talk and laugh all the time
I want to walk over
I want to talk this over
Shelter my love from hate
Shelter my good from evil
She is not thinking of me
She is la la la la

Headclouds, all around me
Headclouds, coming over me

I just woke up beside you
Nothing has changed your mind
Before I closed my eyes
You were a part of my life
Shelter my hopes and dreams
Shelter my heart from darkness
She is not convincing me
She is la la la la

Headclouds, all around me
Headclouds, coming over me

It speels trouble, trouble, trouble...
