

Y'AKOTO, Diamonds

You're too busy
Seeing what you want to see
And you're tied up in a vision
Far away from reality
Why don't you let things be what they want to be
You cannot change everything to your satisfactory
Why don't you know what you can achieve
Without thinking bout what you need

crack the code
live your life
live it good
live it right
crack the code unlock your safe
the diamonds are yours
the diamonds of life
/2x

If you can't ease
Just give yourself a good treat
and feel your soul, ahh
It's you and nobody else
You and nobody else
Who can crack your code to freedom, freedom

crack the code
live your life
live it good
live it right
crack the code unlock your safe
the diamonds are yours
the diamonds of life
/2x

Find your peace of mind
And live your whole life
Would do or would say
Is it negative
Well then push it away
If it's positive
Well enjoy it
if it is usefull critic
now learn how to use it
expand your mind
think about what you might find if you
