

# Y&T, Rescue Me

It was down, I was barely makin' it  
She was gone and I couldn't take it  
I was lookin' for a new way of thinkin'  
When I go to sleep, I pray I wouldn't wake  
up

Well, I want you, I want you  
To rescue me  
The world kept turning  
But I stood still  
Just a shadow lookin' for the man  
Did I play to win?  
Or did I win to loose?  
Of all the cards I had to draw the fool

People tellin' me  
About the things I do  
The more I hear  
The less I see the truth  
Oh, well I'm on the edge  
I can't look down  
Oh, slippin' slippin' slippin' oh

I want you to rescue me  
Oh, rescue me  
Oh, you know I want you  
I want you to rescue me  
Oh, rescue me

A voice faintly callin'  
From another time  
Ooh, so strange  
It sounds like mine

The shades of black  
And the twisted road  
And I can't see the sky from here

Do I turn around?  
Or go straight ahead  
I can't stop now  
I'll find the light somewhere  
Oh, cause I'm on the edge, I can't look  
down  
Oh, slippin' slippin' slippin' oh

I want you to rescue me  
Oh, rescue me  
Oh, you know I want you  
I want you to rescue me  
Oh, rescue me

I want you to rescue me  
Oh, rescue me  
Oh, you know I want you  
I want you to rescue me  
Oh, rescue me
