

# Yam, Smoke

My lullaby  
hung out to dry  
what's up with that?  
it's over  
where are you dad?  
mum's looking sad  
what's up with that?  
it's dark in here  
chorus  
why, breathing is believing  
you're hiding  
underneath the smoke in the room  
cry, breathing is believing  
i used to...  
my mouth is dry  
forgot how to cry  
what's up with that?  
you're hurting me  
i'm running fast  
can't hide the past  
what's up with that?  
you're pushing me  
chorus  
i used to...  
why, breathing is believing  
you're hiding  
underneath the smoke in the room  
cry, breathing is believing  
i saw you crawling on the floor  
why, breathing is believing  
you're hiding  
underneath the smoke in the room  
cry, breathing is believing  
i saw you crawling to the door  
why, breathing is believing  
you're hiding  
underneath the smoke in the room  
cry, breathing is believing  
i saw you fallin on the floor  
underneath the smoke
