

Yello, I Love You

You know I need it
To ride in your car
I know it's dangerous
You're going too far
I'm always with you
Wherever you go

This is a sensual
The way you drive is just sensational
I hate to love you
Love you all the same
You know baby
Driving is a serious game

You gonna get me a heart attack
Stop it, hold it
Hold it back

I know it's dangerous
You're going too far
I'm always with you wherever you go

You know I need it
To ride in your car
I'm always with you
Wherever you go

This is a sensual
The way you drive is just sensational
I hate to love you
Love you all the same
You know baby
Driving is a serious game

You gonna get me a heart attack
Stop it, hold it
Hold it back
