

Yello, Ouad El Habib

Why did you bring us here and left us that day
And you kept saying why do you have this pain

While in the past past time
I always thought of you

What happened to me and kept me in my suffering
Why this suffering why?

What happened to me and kept me in my pain.
Oh my fire, you told me from this day nothing came up
And you must help me surviving this day.

What happened to me oh my soul, my heart, my fire.
This day, he told me do not hurt me and I visit
Him in the day of judgement
