

Yellow Tricycle, Ghost Downtown

Take me where i was when i first met you
Lost myself today like i used to do
Baby stop the car drop me off
Along the way ill find my way
Home under the bridge with my illegal friend
Angels by my side there's no need to stand
I know i can shout tell me you can hear
When you closed the door baby i just wanted more
Hanging with the ghosts downtown
Heaven's where i wanna be
Coast is far away fire on the raft
I'm grabbing what i can memories of you
I know i can shout tell me you can hear
When you closed the door i just wanted more
I am floating away hanging with the ghosts downtown like a splinter in my soul
Heaven's where i wanna be
You dont know how sick i feel
Just like a dog left in the rain
Hanging around with the ghosts downtown
Heaven's where i wanna be
And i wish you were out of me
