

Yellow Tricycle, Numb

I am you you are me i want you you to suffer
You're so sad so fucking mad that's too bad it's all you're good for
I am blind but nevermind in decline in denial
I want love i want love i want love
Want it in me
Acid rain streaks of pain in your face take it slowly
Follow the swine swallow the brine be unkind it's all you're good for
Oh my love come back to me
I want you you don't want me i need you come on closer
I'm so sad so fucking mad it's too bad it's all i'm up for
You are blind but nevermind you're divine don't murder me
Oh my love i want love oh my love
I need it in me
Oh my love i want love oh my love
Come back to me
The world's a ball of dust and i'm the one who's spinning
And only love can save me
If you don't want me to drag you right now
In the muck in the mire you will see your inner lies
I am dumb
I am ugly
I am numb
I am twisted
I am wicked
I am hollow
I'm a swine nevermind
I am bad
I am scary
You get hurt
Am i sorry
I am bored
I am easy
