

Yellowcard, Millennium Changed

Focus on the distance and you fall
Deep inside of all the memories
You choose not to recall

Don't let go
Friends are always learning
Going to get things you couldn't hold

Doesn't mean that they don't care for you
They're just moving on
Doesn't mean that they don't care for you
They're just moving on

This is just to compensate
Changes on my mind I made
Dreaming with you
But I cannot stay

All the times we had are gone
All the things and all the songs
Knew we wouldn't last forever

Nothing in this world comforts you (x2)

All the things and all the songs
Knew we wouldn't last forever

Nothing in this world comforts you
Nothing in this world comforts us

Sorry that I left you all alone
Sorry I'm not going back for more
