

# Yes, Order Of The Universe

I order theme  
(anderson / howe / wakeman / bruford)  
Instrumental

li rock gives courage  
(anderson / howe / wakeman / bruford / lawrence)  
You don't need anybody, don't you give me that surprise  
Everything about you inside your eyes  
You don't need anybody in your family ties  
You crossed over the river

You don't need any money to deserve all your friends  
It's just the love you give them  
You don't need anybody in this complicated life  
You crossed over the river

And you're there on your own and you're lost in your life  
And you think there's someone's gonna make you feel so good  
You better lose control you better watch your step  
For there's something inside you, they call it

Rock gives courage, a way to win the trust  
Rock gives lover a way to win or bust

You don't need anybody in this complicated life  
You crossed over the river

Rock gives courage, a way to with the trust  
Rock gives lovers a way to win or bust

Rock gives sisters a way to speak their mind  
Without this gift of rock and roll  
We'd all be wasting time

lii it's so hard to grow

(anderson / howe / wakeman / bruford)  
They say we've got it made, they say we gotta light  
Where is the man with all the great directions

They say we gotta win, they say we gotta learn  
But in the end it's just the same damn reason

They say you've gotta run, they say you gotta jump  
Don't really need to know which way we're going

They say we gotta push, they say we gotta shout  
Is this the way to keep our bonfires burning

Sick feeling, sick reasoning, sick challenge you la la la la  
You can't imagine it, how hard it is to grow  
You can't imagine it, can you imagine

The order of the universe

You don't need anybody, don't you give me that surprise  
Everything about you inside your eyes  
You don't need anybody in your family ties  
You crossed over the river

You don't need any money to deserve all your friends  
It's just the love you give 'em  
You don't need anybody in the complicated life

You crossed over the river, you crossed over the river  
You crossed over the river, you crossed over the river

Iv the universe  
(anderson / howe / wakeman / bruford)  
The order of the universe  
The order of the universe
