

Yes, Real Love

(Rabin, Squire, Anderson)

Get the fire, as the flame it burns,
Get the wind as it slowly turns.
Get the earth as it circles by,
Get the sky see creation fly.

This point of living;
This point of giving;
This chance of living,
Has got to be known.

Get the fire, as the flame it burns,
Get the wind as it slowly turns.
Get the earth...
Get the sky...

Far away, in the depths of Hawking's mind
To the animal, primalistic grind,
You bring me reason, a simple fact of life.
(Bring me reason...)
You don't say you're sorry...
