

# Yo La Tengo, Nowhere Near

Do you know how I feel  
How I feel about you  
Do you know this is real  
How I feel around you

When I see you look at me  
I'm not sure of anything  
All I know is when you smile  
I believe in everything  
Do you know how I dream  
How I dream about you  
Do you know how I feel  
Do you know...

Do you know how I feel  
How I feel about you  
Doesn't take much to tell  
That I love, oh, I...

Everyone is here, but you're nowhere near
