

Yothu Yindi, Our Generation

Someone in the city
Gets a piece of paper
Someone in the bush
Holds the law in their hands

Last chance for freedom
In our generation
We're not the only people
In our generation

Cultures fuse in a global nation
Human rights for indigenous peoples
Learning life's lessons of old
You can't take it away
From our generation
Last chance for freedom
For our generation

In our generation
It's our generation...

Sending a message of hope
To the world
Love sees no colour
In everyone

In our generation
It's our generation
