## Yothu Yindi, Our Generation

Someone in the city Gets a piece of paper Someone in the bush Holds the law in their hands

Last chance for freedom In our generation We're not the only people In our generation

Cultures fuse in a global nation Human rights for indigenous peoples Learning life's lessons of old You can't take it away From our generation Last chance for freedom For our generation

In our generation It's our generation...

Sending a message of hope To the world Love sees no colour In everyone

In our generation It's our generation
