

# You me at six, Promise, Promise

Tie a noose around my neck, and kick away the chair baby.

You've got me right where you need.

Cut the words you're about to wake when

We've got you right where you always are (open up your eyes)

Let me know

Let me know

Let me know

Let me know

Come on, cut the ropes.

Come on, cut the ropes.

Cut, cut the ropes. (ropes)

Cut, cut the ropes.

Cut the ropes.

Cut the ropes.

Let me know, can't you let me know?

Let me know.

Let me know.

Try to promise, promise everything, try the words so we can break,

Promise promise everything. eggs are so that i can weep. (couldn't make out that bit)

Promise promise everything, so i can believe in what you say.

Promise promise everything, eggs are so that i can't leave.

Just wont you let me know then?

Just wont you just let me see?

Just wont you let me know, Dad? (Just what can you want me to see? I cant see this.)

Just wont you just let me see? (Until I leave.)

Tireless, dispite us. Just playin this, WHAT?

Let me know (why wont you?)

Let me know

Let me know (Promise promise everything, try the words so we can break,)

Let me know (Promise promise everything, try the air so we can leave!)
