Young Thug, Moon Man (feat. Strick & Kid Cudi)

Da-da, da, da-da, da (Yeah)

I took off and went to the stars, I came back, they callin' me "Moon Man" (Shh), yeah
I hit the stage like guitars and I rock it for 'em all night, yeah (Let's go)
Life is just like a buffet to me, I pick what I like and see (Yeah)
The secret is being yourself, oh, I just gave it away to 'em (Woo)
Commas and exclamations, yeah, it gotta be (Ah, racks), yeah
Dollar signs, diamonds, she see it all on me
Darlin', you and me, what a sight to see (Sight to see)
You a supernova, do your dance with me

Wanna see you shake your front, shake your back, shake your side-side (Side-side)
Want you to get you on top, baby girl, yeah ride-ride (Yeah, ride-ride)
Want you comin' 'round sometime to the right side (Right side, ooh-ooh)
Baby, come around, this the right side (Right side, hey)
Wanna see you shake your front, shake your back, shake your side-side (Side-side, yee)
Want you to get you on top, baby girl, yeah ride-ride (Ride-ride, get on top)
